

Ammonia is found in many common household and commercial cleaners. When large volumes of these cleaners are flushed down the drain or toilet, the ammonia ends up at the wastewater treatment plant and can impact the plant's ability to meet its discharge permit. We are asking our tenants to help by avoiding the use of ammonia-based cleaners. This informational flyer includes information on cleaning products available which are ammonia free.

The lists below show common ammonia free cleaners.

Glass Cleaners:

- ◇ Windex—Crystal Rain
- ◇ Mrs. Meyer's Clean Day—Glass Cleaner
- ◇ Earth Friendly Products—Window Cleaner with Vinegar
- ◇ Hope's Perfect Glass Cleaner
- ◇ Simoniz Green Scene GC-20 Glass Cleaner (available in bulk)

Bathroom and Toilet Bowl Cleaners:

- ◇ Green Works—Toilet Bowl Cleaner
- ◇ Seventh Generation—Disinfecting Bathroom Cleaner

Multipurpose Cleaners:

- ◇ Seventh Generation Disinfecting Multipurpose Surface Cleaner
- ◇ Mrs. Meyer's Clean Day—Multisurface
- ◇ Bar Keepers Friend—Cleanser and Polish
- ◇ Soft Scrub
- ◇ Simple Green—Industrial Cleaner and Degreaser (available in bulk)

Oven and Drain Cleaners:

- ◇ Simple Green Biodegradable Degreaser Cleaner
- ◇ American Bio-Systems Drain Gel Drain Organic Cleaner
- ◇ Simple Green—Industrial Cleaner and Degreaser (available in bulk)

Tips to identify ammonia free cleaners:

- ◆ Look for products labeled "Ammonia Free" on the packaging and avoid those labeled "Contains Ammonia"
- ◆ Carefully read product labels for ammonia listed as ingredients
- ◆ Ammonia should not be mixed with bleach. If a product is labeled that it contains bleach it is ammonia free
- ◆ If a product is labeled as "tough on grease" or marketed as "heavy-duty" it likely contains ammonia.
